I. Introduction

This report presents a statistical description of offenders released to the street from Massachusetts correctional facilities with a pre-release component during 1985 with corresponding recidivism rates. This report presents statistics for two facilities which combine minimum and pre-release populations (MCI-Shirley and MCI-Lancaster), state pre-release facilities (Boston State PRC, South Middlesex PRC, Park Drive PRC, and Norfolk PRC), two drug rehab programs (Meridian House and Boston VA Hospital), and seven contract pre-release facilities (Brooke House, Coolidge House, Coolidge II, THP, McGrath House, Charlotte House and Hillside). For purposes of this report, the Massachusetts Correctional Institutions are collapsed in to the "non-pre-release" category. Statistics for maximum security facilities (MCI-Cedar Junction and Lemuel Shattuck), medium security facilities (MCI-Concord, MCI-Norfolk, MCI-Framingham, SECC and NCCI), minimum security facilities Bay State C.C. and N.C.C.) and three facilities which combine minimum and pre-release populations (MCI-Plymouth, MCI-Warwick and MCI-Longwood) are presented in another report (Number 321), along with a description of the recidivism data. In order to be consistent with past recidivism reports, MCI-Plymouth, MCI-Warwick and MCI-Longwood are reported as minimum, and MCI-Shirley and MCI-Lancaster are reported as pre-release.

---

* The writer wishes to acknowdedge the significant contributions of Joanne Heliotis, Kathy Bishop and David Denehey with the collection, coding, and entry of the recidivism data used in this study.

Information contained in this report includes recidivism rates with regard to release variables, nature of present offense, personal background, criminal history, furlough participation, and release follow-up variables. Each table contains two types of information: (1) statistical data describing characteristics of offenders released from each institution during 1985; and (2) the rates of recidivism cross-tabulated with each of the categories of the statistical data for these offenders.

This report consists solely of statistical tables. In reading these tables, the reader should note the following: (1) the release population is divided according to the institution of release; (2) N represents the number of offenders who fall into the corresponding category in the table; (3) P represents the percentage of the number of offenders in a particular category to the number of offenders released from that institution (column percents); and (4) RR (Recidivism Rate) represents the percentage of offenders in that category who have recidivated. For example, upon referring to the first table on pages 8 and 9 the variable "Type of Release" is presented and the following kinds of information may be obtained: (1) the total number of releases broken down by specific institution is labeled and presented horizontally across the head of the table; (2) the type of release (parole or discharge) is labeled and presented vertically; (3) of the 1,979 offenders released during 1985, (70%) were released on parole and (30%) were released on a discharge; and (4) those offenders released from Lancaster who were released on parole had a recidivism rate of 27% while those offenders released from Lancaster on a discharge had a recidivism rate of 33%.

The material was derived from the DOC computerized inmate data base. Additional court record information was collected at the Office of Commissioner of Probation's Research and Planning Department.

II. Methods

During 1985, a total of 1,979 offenders (1,544 males and 435 females) were released from the correctional facilities listed above after having been incarcerated for at least 30 days. Any offender who was incarcerated for less than 30 days or who was not released to the street (i.e., released to a new sentence at a State, Federal or county facility, or released to and held on a warrant) was excluded from the study*. The follow-up period is one year from the date of the offender's release to the community. A recidivist is defined as any offender who returns to a state or federal correctional institution, or to a house of correction or jail during the follow-up period for 30 days or more. This includes parole violators as well as those offenders sentenced for new crimes.

There was one individual released from Lemuel Shattuck hospital, one released from Hodder House, and two released from Medfield Prison Project. In order to protect the identification of these 4 individuals, in the statistical tables in Section Two of this report their releases are included in the "other" institution category.

---

* Inadvertently, 1 case was included where the time served was less than 30 days. Inclusion of this case does not affect the recidivism rate.

Pre-Release Facilities	McGrath House (formerly 577 House) Coolidge II (formerly 699 House) Temporary Housing Project Boston State PRC Coolidge House Brooke House South Middlesex PRC Park Drive PRC Lancaster Hillside PRC Norfolk Pre-Release Center Charlotte House
Drug Programs	Meridian House Boston VA Hospital

IV. Glossary (continued)

IRH	Institutional Revocation Hearing
PV	Parole Violation
HOC	House of Correction
DOC	Department of Correction
OFFENSE	
Manslaughter	Includes vehicular homicide
Assault - Intent to Murder	Includes assault with intent to murder, attempted murder, and accessory to murder
Armed Assault	Includes assault with intent to rob - being armed, armed assaults in dwelling houses, assault and battery with dangerous weapon, and assault by means of a dangerous weapon
Unarmed Assault	Includes assaults with intent to rob - not being armed, assault, and assault and battery
Other Person	Includes confining or putting in fear a person for the purpose of stealing, mayhem, extortion, and conspiracy

OFFENSE (continued)

Rape of Minor	Includes rape of female under sixteen, and rape of child
Assault w/Intent to Rape of Minor	Includes assault on female under sixteen with intent to commit rape, and indecent assault and battery on child under 14
Unnatural Acts	Includes unnatural and lascivious acts, and sodomy and buggery
Vehicle Theft	Includes theft of a motor vehicle, and use without authority
Prositution	Includes common night walker, deriving support from prostitute, and prostitution
Weapons Offenses	Includes weapons offenses, and weapons violation
Vehicle Offenses	Includes motor vehicle offenses, and leaving the scene
Contempt of Court	Includes contempt of court, and violation of a court order/violating a restraining order
Other	Includes nonsupport, unlawful possession of alcohol,trespassing, and other.

OFFENSE (continued)

Class A	Includes possession, sale, manufacturing, distribution, dispensing of a Class A controlled substance (Heroin, Morphine) or intent to do any of the above
Class B	Same as for Class A, but for Class B controlled substance (Amphetamines, Barbituates, Cocaine)
Class D	Same as for Class A, but for Class D controlled substance (Marijuana)
Controlled Substance - No Class	Includes possession of narcotic drugs other than heroin with or without intent to sell

I. Introduction

This report presents a statistical description of offenders released to the street from Massachusetts correctional facilities with a pre-release component during 1986 with corresponding recidivism rates. This report presents statistics for two facilities which combine minimum and pre-release populations (MCI-Shirley and MCI-Lancaster), state pre-release facilities (Boston State PRC, South Middlesex PRC, Park Drive PRC, and Norfolk PRC), one drug rehab program (Meridian House), and seven contract pre-release facilities (Brooke House, Coolidge House, Coolidge II, THP, McGrath House, Charlotte House and Hillside). For purposes of this report, the Massachusetts Correctional Institutions are collapsed in to the "non-pre-release" category. Statistics for maximum security facilities (MCI-Cedar Junction and Lemuel Shattuck), medium security facilities (MCI-Concord, MCI-Norfolk, MCI-Framingham/Hodder House, SECC and NCCI), minimum security facilities Bay State C.C. and N.C.C.) and three facilities which combine minimum and pre-release populations (MCI-Plymouth, MCI-Warwick and MCI-Longwood) are presented in another report (Number), along with a description of the recidivism data. In order to be consistent with past recidivism reports, MCI-Plymouth, MCI-Warwick and MCI-Longwood are reported as minimum, and MCI-Shirley and MCI-Lancaster are reported as pre-release.

Information contained in this report includes recidivism rates with regard to release variables, nature of present offense, personal background, criminal history, furlough participation, and release follow-up variables. Each table contains two types of information: (1) statistical data describing characteristics of offenders released from each institution during 1986; and (2) the rates of recidivism cross-tabulated with each of the categories of the statistical data for these offenders.

This report consists solely of statistical tables. In reading these tables, the reader should note the following: (1) the release population is divided according to the institution of release; (2) N represents the number of offenders who fall into the corresponding category in the table; (3) P represents the percentage of the number of offenders in a particular category to the number of offenders released from that institution (column percents); and (4) RR (Recidivism Rate) represents the percentage of offenders in that category who have recidivated. For example, upon referring to the first table on pages 8 and 9 the variable "Type of Release" is presented and the following kinds of information may be obtained: (1) the total number of releases broken down by specific institution is labeled and presented horizontally across the head of the table; (2) the type of release (parole or discharge) is labeled and presented vertically; (3) of the 2,767 offenders released during 1986, (64%) were released on parole and (36%) were released on a discharge; and (4) those offenders released from Lancaster who were released on parole had a recidivism rate of 24% while those offenders released from Lancaster on a discharge had a recidivism rate of 14%.

The material was derived from the DOC computerized inmate data base. Additional court record information was collected at the Office of Commissioner of Probation's Research and Planning Department.

II. Methods

During 1986, a total of 2,767 offenders (2,156 males and 611 females) were released from DOC facilities listed above after having been incarcerated in the DOC for at least 30 days. Any offender who was incarcerated for less than 30 days or who was not released to the street (i.e., released to a new sentence at a State, Federal or county facility, or released to and held on a warrant) was excluded from the study. In the case of inmates transferred from houses of correction to Longwood T.C., the time spent in county facilities was counted towards the 30 days. An analysis of cases excluded from the sample can be found in the Appendix of the main report. The follow-up period is one year from the date of the offender's release to the community. A recidivist is defined as any offender who returns to a state or federal correctional institution, or to a house of correction or jail during the follow-up period for 30 days or more. This includes parole violators as well as those offenders sentenced for new crimes.

There were four individuals released from Lemuel Shattuck hospital, and two released from Medfield Prison Project. In order to protect the identification of these individuals, in the statistical tables in Section Two of this report their releases are included in the "other" institution category.

I. Introduction

This report presents a statistical description of offenders released to the street from Massachusetts correctional facilities with a pre-release component during 1987 with corresponding recidivism rates. This report presents statistics for three facilities which combine minimum and pre-release populations (MCI-Shirley, MCI-Lancaster and Hodder House), state pre-release facilities (Boston State PRC, South Middlesex PRC, Park Drive PRC, and Norfolk PRC), one drug rehab program (Spectrum House), and seven contract pre-release facilities (Brooke House, Coolidge House, Coolidge II, THP, McGrath House, Charlotte House and Hillside). For purposes of this report, the Massachusetts Correctional Institutions are collapsed in to the "non-pre-release" category. Statistics for the maximum security facility (MCI-Cedar Junction) medium security facilities (MCI-Concord, OCCC, MCI-Framingham, MCI-Norfolk, SECC and NCCI), minimum security facilities (Bay State C.C. and N.C.C.) and three facilities which combine minimum and pre-release populations (MCI-Plymouth, MCI-Warwick and Longwood T.C.) are presented in another report (Number 348), along with a description of the recidivism data. In order to be consistent with past recidivism reports, MCI-Plymouth, MCI-Warwick, Hodder House and MCI-Longwood are reported as minimum, and MCI-Shirley and MCI-Lancaster are reported as pre-release.

Information contained in this report includes recidivism rates with regard to release variables, nature of present offense, personal background, criminal history, furlough participation, and release follow-up variables. Each table contains two types of information: (1) statistical data describing characteristics of offenders released from each institution during 1987; and (2) the rates of recidivism cross-tabulated with each of the categories of the statistical data for these offenders.

This report consists solely of statistical tables. In reading these tables, the reader should note the following: (1) the release population is divided according to the institution of release; (2) N represents the number of offenders who fall into the corresponding category in the table; (3) P represents the percentage of the number of offenders in a particular category to the number of offenders released from that institution (column percents); and (4) RR (Recidivism Rate) represents the percentage of offenders in that category who have recidivated. For example, upon referring to the first table on pages 8 and 9 the variable "Type of Release" is presented and the following kinds of information may be obtained: (1) the total number of releases broken down by specific institution is labeled and presented horizontally across the head of the table; (2) the type of release (parole or discharge) is labeled and presented vertically; (3) of the 2,859 offenders released during 1987, (60%) were released on parole and (40%) were released on a discharge; and (4) those offenders released from Lancaster who were released on parole had a recidivism rate of 29% while those offenders released from Lancaster on a discharge had a recidivism rate of 35%.

The material was derived from the DOC computerized inmate data base. Additional court record information was collected at the Office of Commissioner of Probation's Research and Planning Department.

II. Methods

During 1987, a total of 2,859 offenders (2,278 males and 581 females) were released from DOC facilities after having been incarcerated in the DOC for at least 30 days. Any offender who was incarcerated for less than 30 days or who was not released to the street (i.e., released to a new sentence at a State, Federal or county facility, or released to and held on a warrant) was excluded from the study. In the case of inmates transferred from houses of correction to Longwood T.C., the time spent in county facilities was counted towards the 30 days. An analysis of cases excluded from the sample can be found in Section VI, Technical Notes of report number 348. The follow-up period is one year from the date of the offender's release to the community. A recidivist is defined as any offender who returns to a state or federal correctional institution, or to a house of correction or jail during the follow-up period for 30 days or more. This includes parole violators as well as those offenders sentenced for new crimes.

There were three individuals released from Lemuel Shattuck hospital, and four individuals released from OCCC. In order to protect the identity of these individuals, in the statistical tables in Section Three of this report their releases are included in the "other" institution category. There was also one individual released from Spectrum House who is included in the total columns in the tables but not in a specific institution category.

Recidivism data was collected and coded for this study by students from the Northeastern University Cooperative Education Program. Special thanks for their efforts.
